

## **SPRING SCHEDULE 2024**

### **ENRICHMENT MONDAY CLASSES**

**JANUARY 8 -APRIL 29**

**(NO CLASSES JANUARY 15, FEBRUARY 19 & APRIL 1)**

**KINDERGARTEN - 8TH GRADE**

**PRICES PER SEMESTER**

**(SUPPLY FEES INCLUDED)**

**\*ALL class fees & registration fees are non-refundable\***

## Registration

Spring 2024 semester registration does **NOT** include Timothy Ministry t-shirt. The t-shirt is **REQUIRED** for **ALL** homeschool students and will be ordered online. JFCA students **DO NOT** require the Timothy Ministry t-shirt.

**Fee \$10** per student (paid at checkout)

**Fee \$20** per family (paid when creating an account for billing with FACTS system)

\*Once paid, **All** class fees and registration fees are **NON-REFUNDABLE**.

\*All class & registration fees must be paid in **FULL** by **1/8/2024**

\*Any fees not paid in full by 1/8/2024 will incur a late fee and/or student(s) will not be permitted to attend classes until account is fully paid.

### 9:00 AM- 12:30 PM

#### Kindergarten Class

This 3.5 hour class encompasses literature, science, and art using hands on activities and collaborative learning. This program is designed to enrich and develop your child's love for learning and knowledge in a safe and nurturing environment. Students will bring their own lunch, drink and snack each week. (MUST BE 5 YEARS OLD BY AUGUST 1ST)

Fee: \$340

Instructor: Ms. Miniter

### 9:00 AM- 10:25 AM

#### Baking Skills (1st - 2nd grade) \*Ingredients may contain peanut butter, gluten and other allergens.

Students will learn the basics of baking and cooking such as proper hygiene and how to properly/safely handle raw ingredients, cutting utensils, following instructions and be exposed to new vocabulary. While baking & cooking they will learn time management and have new recipes to take home such as pizzas, cookies, how to knead bread etc.

Fee: \$130

Instructor: Ms. Janet Rooks

#### STEM Tales (1st-2nd grade)

This class will be using STEM (Science, Technology, Engineering, Mathematics) activities/challenges using various stories. Students will engineer happy endings to fairy tales and solve problems in stories—as they design a house that can't be blown down, a bed that can't be broken, bridges that need to be fixed etc. Activities will be individual as well as working in groups. All activities/challenges will be age appropriate. (Stories may change per semester)

Fee: \$130

Instructor: Mr. Drew Johnson

#### Adventures in Reading (3rd-5th grade)

Developing a love for reading at a young age is key to a child's development. Students will work on their reading comprehension and fluency skills while introducing them to interesting short stories, poems, etc. This class will allow the students to develop their confidence as they participate in small/large group activities, games, retelling, learn cause & effect, main idea, use of listening stations & much more. Discussions will be in a safe, judgment-free environment and reading material will be age appropriate. (Students are encouraged to bring reading material to share with the class. Materials brought from home, must follow our beliefs and values and be approved by the teacher)

Fee: \$130

Instructor: Ms. Tara Blackstock

#### Beginning Sewing (3rd-5th grade)

Students will learn the basics of hand sewing and various stitching techniques. We will make a variety of projects the students will be able to take home. Once the basic skills are mastered, we will move into learning about sewing with machines. We will be making items such as pillows, pillow cases, bags and more. (Projects will be the same as Fall semester except for holiday projects)

Fee: \$130

Instructor: Ms. Cristy Van Popering

---

**10:30 AM- 12:25 PM**

Lunchtime is included in this time slot. Students must bring a non-microwaveable, ready to eat lunch and water bottle. Each class will stay with their group and teacher.

### **Exploring the States (1st-2nd grade)**

Traveling through the 50 States with students can be a fantastic educational adventure. Students will be able to participate in engaging lessons, activities, and crafts to learn about each state. They will have an opportunity to learn and/or practice their map skills, geography, reading, writing etc.

Fee: \$150

Instructor: Ms. Tara Blackstock

### **Learning to Read (1st-2nd grade)**

Students will learn to read and/or improve their reading skills using the Orton-Gillingham Approach. This approach is a multisensory instruction that engages the learner in an active understanding of what they are learning, why they are learning it, and how to apply their learning in a thoughtful way. It encourages thinking and reasoning while having fun! \*This class is for students that are learning to read and/or may need a bit more practice with reading.

Fee: \$150

Instructor: Ms. Janet Rooks

### **Art Mixed Media (3rd-5th grade)**

Students will be exploring different art tools, materials and techniques, inspired by some great artists. Projects will include drawing, painting, collages etc. Materials that we will explore include color pencil, pastel, watercolor, acrylic, and more.

Fee: \$150

Instructor: Ms. Ashley Walker

### **STEM Tales (3rd - 5th grade)**

This class will be using STEM (Science, Technology, Engineering, Mathematics) activities/challenges using various stories. Students will engineer happy endings to fairy tales and solve problems in stories—as they design a house that can't be blown down, a bed that can't be broken, bridges that need to be fixed etc. Activities will be individual as well as working in groups. All activities/challenges will be age appropriate. (Stories may change per semester)

Fee: \$150

Instructor: Mr. Drew Johnson

---

**12:00 PM - 12:30 PM**

### **Lunch-JFCA Students ONLY**

Students will bring a non-microwaveable, ready to eat lunch and their water bottle. Students will sit together with their group and teachers will supervise the room.

Fee: \$20

Instructors: Ms. Love & Ms. Greenway

---

## 12:30 PM- 1:25 PM

### P.E. (Kindergarten)

Students will improve their strength, endurance and flexibility with exercises and games. Athletic shoes and labeled water bottle are required every week.

Fee: \$80

Instructor: Ms. Becky Love

### P.E. (1st-2nd grade)

Students will improve their strength, endurance and flexibility with exercises and games. Athletic shoes and labeled water bottle are required every week.

Fee: \$80

Instructor: Ms. Kerri Greenway

### Baking Skills (K-2nd grade) \*Ingredients may contain peanut butter, gluten and other allergens.

Students will learn the basics of baking and cooking such as proper hygiene and how to properly/safely handle raw ingredients, cutting utensils, following instructions and be exposed to new vocabulary. While baking & cooking they will learn time management and have new recipes to take home such as pizzas, cookies, how to knead bread etc.

Fee: \$80

Instructor: Ms. Janet Rooks

### Read it & Make it (K-2nd grade)

Students will explore a world of stories, unlocking their creativity as they read books, create a craft, produce delightful treats, play games and much more! All activities will be age appropriate and will relate to the story being read.

Fee: \$80

Instructor: Ms. Michele Shimizu

### Elementary Element Explorers (1st-2nd grade)

Science is for everyone - including kids! God is a wonderful creator and the ultimate engineer. By taking a closer look at how our world functions and different elements interact, we are able to marvel at His beautiful design. Additionally, fun science activities can cultivate confidence in young scientists as well as interest in the field. The majority of the class will be performing simple experiments that produce visible results, such as making elephant toothpaste, ooblek, rainbow in a jar, neon flowers, and more.

Fee: \$80

Instructor: Ms. Kayla Hockstra

### **Adventures in Reading (3rd-5th grade)**

Developing a love for reading at a young age is key to a child's development. Students will work on their reading comprehension and fluency skills while introducing them to interesting short stories, poems, etc. This class will allow the students to develop their confidence as they participate in small/large group activities, games, retelling, learn cause & effect, main idea, use of listening stations & much more. Discussions will be in a safe, judgment-free environment and reading material will be age appropriate. (Students are encouraged to bring reading material to share with the class. Materials brought from home, must follow our beliefs and values and be approved by the teacher)

Fee: \$80

Instructor: Ms. Tara Blackstock

### **Beginning Spanish (3rd-5th grade)**

Learn a new language while having fun! This Spanish class will teach the student various topics such as colors, numbers, greetings, vocabulary, and more using engaging multisensory activities such as games, songs & read alouds.

Fee: \$80

Instructor: Ms. Firmin

### **Lego Challenge Club (3rd-5th grade)**

Tap into your students curiosity! Students will enhance their creativity and constantly discover the endless possibilities of creating something new every time. They will participate in engaging & playful Lego challenges that will teach them how to build, un-build & rebuild various projects. (Legos will be provided for in class use. Please **do not** bring Legos from home)

Fee: \$80

Instructor: Mr. Joseph Martinez

### **Make IT and Take IT, crafts (3rd-5th grade)**

Students will enjoy exploring their creative side by creating crafts. They will learn how to create masterpieces by using recycled and repurposed items/materials such as CD's, pinecones, bottle caps, etc.

Fee: \$80

Instructor: Ms. Hartzell

### **STEM Tales (3rd - 5th grade)**

This class will be using STEM (Science, Technology, Engineering, Mathematics) activities/challenges using various stories. Students will engineer happy endings to fairy tales and solve problems in stories—as they design a house that can't be blown down, a bed that can't be broken, bridges that need to be fixed etc. Activities will be individual as well as working in groups. All activities/challenges will be age appropriate. (Stories may change per semester)

Fee: \$80

Instructor: Mr. Drew Johnson

---

**1:30 PM- 2:25 PM**

**Lego DUPLO Challenge Club (Kindergarten)**

Develop your student's imagination and creativity in our Lego Duplo Club! Playful learning is key in a child's development. Students will create all sorts of projects anything from free play, challenges to pretending to be on a farm, stuck in a tower or even on a train! The possibilities are endless!

Fee: \$80

Instructor: Ms. Beth Minitier

**P.E. (K-2nd grade)**

Students will improve their strength, endurance and flexibility with exercises and games. Athletic shoes and labeled water bottle are required every week.

Fee: \$80

Instructor: Ms. Becky Love

**Exploring the States (K-2nd grade)**

Traveling through the 50 States with students can be a fantastic educational adventure. Students will be able to participate in engaging lessons, activities, and crafts to learn about each state. They will have an opportunity to learn and/or practice their map skills, geography, reading, writing etc.

Fee: \$80

Instructor: Ms. Kayla Hockstra

**Hands on Gardening (3rd-5th grade)**

Develop your student's green thumb by learning all about gardening such as designing, harvesting, fertilizing, watering & companion planting. Our students will have the chance to grow their own crops & harvest them in our Johnson Ferry Garden (located by the playground). They will have the opportunity to grow various items such as carrots, herbs, tomatoes, flowers, just to name a few.

Fee: \$80

Instructor: Ms. Teri Harmon

**P.E. (3-5th grade)**

Students will improve their strength, endurance and flexibility with exercises and games. Athletic shoes and labeled water bottle are required every week.

Fee: \$80

Instructor: Ms. Kerri Greenway

**S.T.E.A.M Engines (3rd-5th grade)**

We'll explore God's world of engineering through trains. Students will learn to ask questions such as "How does that work?" and start to creatively discover the answer. We'll investigate mechanical machines, engineering, geography, geology, the history of our country, art & design and creative storytelling. Topics will change weekly & will build on the world of railroads so this class will have something for everyone!

Fee: \$80

Instructor: Ms. Sylvia Strauss

---

## MIDDLE SCHOOL STUDY GROUP

### 6TH-8TH GRADE

**9:00 AM - 11:25 AM**

#### Science Lab, Math Lab & Lunchtime

Science Lab and Math Lab will be taught by JFCA graduate and KSU Sophomore student. In Science Lab, explore & reinforce your student's science skills in chemical reactions, gravity, buoyancy, and more with various science experiments, demonstrations, and activities. Math Lab will give your student the chance to engage in short fun math challenges as well as bring in any math work in which they require some assistance. Students must bring their lunch every week or they may bring cash to buy their lunch at our Provisions Cafe.

Fee: \$300

Instructor: Mr. Branham

**11:30 AM - 12:25 PM**

#### Spanish Immersion Class

This class is designed to develop communication and conversational skills in Spanish. The students will learn how to greet people, short conversational phrases, describe family & friends, talk about hobbies and communicate about other topics. Each lesson will present various topics & vocabulary such as weather, numbers, calendar, grammar how to express their likes & dislikes etc. In addition, they will learn about different cultures & traditions of Spanish-speaking countries as well as touch upon history & geography. (All levels of Spanish speakers & non-Spanish-speakers are welcomed)

Fee: \$150

Instructor: Ms. Saray Firmin

**12:30 PM - 2:30 PM**

#### Art Mixed Media

Students will be exploring different art tools, materials and techniques, inspired by some great artists. Projects will include drawing, painting, collages etc. Materials that we will explore include color pencil, pastel, watercolor, acrylic, and more.

Fee: \$350

Instructor: Ms. Ashley Walker
