Policies

Cell Phone Policy

Students are rarely given the opportunity to unplug from the constant stream of distractions, drama, and temptation that go hand-in-hand with smart phone use. We believe that God wants to use this week as a unique period of time in each of these student's lives where they can focus on what God is doing in them and in the world. In order to ensure that every student is in the best possible position to receive that message, we are encouraging students to delete social media, restrict screen time, and use their cell phone only when necessary during the trip. We are aware that it would be unwise to collect cell phones during ministry days/travel in NYC, so we are encouraging students to keep their phone in their backpack to promote conversation within their team, and see opportunities they may have to share the gospel.

We will be collecting phones during our evening worship/family group time back at Pace, but they will receive them back before going to bed.

We appreciate your encouragement and support in challenging students to take a break from all the "noise", and use their phones only when necessary during the trip.

NYC Medical Information

- Micaela Robinson and Hallie Boatright will be the nurses on the trip who will first assess any injury/illness, administer initial treatment, and then place a phone call to the parent/emergency contact listed.
- Each student should have these medications in his/her carry-on bag:
 1. Tylenol, Advil, or Motrin (whichever pain medication they prefer)
 2. Band-Aids
 3. Some type of cold or sinus medication such as Tylenol Cold Medicine.
 4. Cough drops or sore throat drops
- If your student is allergic to bee stings, ants, peanuts, etc., and has been prescribed an Epi Pen, the Epi Pen must be in the carry-on.
- If your student has Asthma or Reactive Airway Disease and has been prescribed an inhaler (even if not often needed) MAKE SURE inhaler is in carry-on.
- If your student occasionally takes medications due to old sports injuries, migraines, etc., even if not often needed, *please pack that medication*.
