

PEER CHALLENGE SCHEDULE - MENTOR

Each month the mentees are to pair up for a "Peer Challenge". This is to process their homework on a deeper level and to create the action steps to apply what they are learning. This will also promote building relationships among the women.

Before you meet, assign the peer challenge partners and record them here. You'll want to rotate the partners each month so that each person will be paired up with every other woman in the group during your mentoring year. The Mentor keeps this form as a reference.
 *Note: Odd numbered groups may want the mentor to place herself in the odd slot (for their one-on-one), or may allow the extra person to forego that month's peer challenge meeting.
